

The Matrix Biology Society of Australia and New Zealand (MBSANZ) are pleased to announce their 40th Annual Meeting

November 20th – 23rd 2016

Where: The tranquil setting of the Liz Kernohan Conference Centre at the University of Sydney Camden Campus, an ideal location for the retreat style conference planned for MBSANZ 2016

What: Outstanding international and national speakers will explore exciting topics of significance to health and disease where the extracellular matrix and matrix biology play critical roles, such as:

- Fibrosis - Raghu Kalluri (University of Texas)
- Pain - Anne-Marie Malfait (Rush University)
- Neural development and plasticity – Roger Pocock (Monash University)
- Glycomics - Jerry Turnbull (University of Liverpool)

Details: The new MBSANZ conference website will be up and running in a few weeks - so keep an eye out for the a program outline and information about registration, abstract submission and accommodation.

Plus a host of other matrix-related themes including genetics, biochemistry, cell biology, invasion and metastasis, and tissue engineering.

Save the date, and come and celebrate our **Ruby** Anniversary
